### Grant Information

#### Introduction

The Urban Greening Grant Program (the Grant Program) supports 33 Local Governments in the Perth (Boorloo) and Peel (Bindjareb) regions to expand tree canopy and vegetative cover, thus mitigating the impacts of climate change, increasing biodiversity, providing hydrological benefits and improving human health and wellbeing.

Funded by the Department of Water and Environmental Regulation (DWER) and delivered collaboratively with WALGA, the program provides a total of \$3.75 million (ex GST) to accelerate planting beyond current annual programs.

Applications are being invited for Round Two of the Grant Program, which has a funding allocation of \$2.8 million available.

Local Governments are able to submit one funding application in Round Two. Funding applications can include multiple projects and/or sites. Round One successful grant recipients are eligible to apply for funding under Round Two. There will be no further funding rounds under the current program.

Approved activities and assessment criteria are outlined in the Grant Guidelines, available on WALGA's website. Before completing this application form, ensure you have read and understood the Grant Guidelines.

Applications close at **5pm on Friday, 28 June 2024**. Incomplete applications and/or applications received after this date will not be considered.

If you have any questions, please email [Melanie Davies](#), Urban Forest Program Facilitator, or call (08) 9213 2065.

#### Objectives

The objectives of the Grant Program are to support urban greening projects that:

- Accelerate the establishment of tree canopy and vegetative cover in the Boorloo and Bindjareb regions;
- Reduce the impacts of the urban heat island effect;
- Provide positive outcomes for urban biodiversity;
- Create ecological nature links that connect bushland areas;
- Improve human health and well-being;
- Improve urban hydrological functions; and
- Improve social and visual amenity of neighbourhoods.

Please avoid the use of commas

### Total number of understorey plants to be installed

Must be a number.  
Please avoid the use of commas

### Start Date

Must be a date.

### End Date

Must be a date.  
Planting projects are to be implemented by 30 June 2025

### 6. Please provide a summary of the greening project and multiple benefits it will provide

Must be no more than 400 words.

### 7. Please describe how your project design has been informed by cross-department expertise

Word count:  
Must be no more than 400 words.

## Assessment Criteria

\* indicates a required field

Assessment Criteria 1: High urban heat and low canopy area (20% weight)

### 8. Please describe the project area and it's Urban Heat Index rating and percentage urban canopy cover. Please also provide information on the surrounding land use and green spaces.

Word count:  
Must be no more than 400 words.
