

WasteSorted Community Education Grants

* indicates a required field

Community education and behaviour change

The WasteSorted Community Education Grants 2026-27 are an initiative of the Government of Western Australia (State Government) administered by the Waste Authority. They provide funding for community education and behaviour change projects that help to achieve the objectives and targets of Western Australia's [Waste Avoidance and Resource Recovery Strategy 2030](#) (waste strategy).

You are strongly encouraged to use the Waste Authority's [WasteSorted toolkit](#) and [GREAT Sorts](#) campaign messages in your project. Your application should explain how these messages will be included in project delivery and communications.

A maximum grant of \$25,000 (excluding GST) is available per project.

Please take your time to read all questions (and hints) before starting your application. Complete each section, refer to the guidelines and allow yourself enough time to review the application before the due date.

For any queries about the guidelines, deadlines, or questions in the application form, please contact the WasteSorted Grants officer: wsg@dwer.wa.gov.au

Please allow at least 12 weeks from the closing date of applications to approval of funding.

SmartyGrants tips

To help you complete your application smoothly:

Auto Save (NEW) – If SmartyGrants logs you out after **20 minutes of inactivity**, your work will be **saved automatically**.# You'll see a warning message after 18.5 minutes with a 90-second countdown. Click **Extend Session** to keep working.

Save regularly – While auto-save is now available, we still recommend clicking **Save Progress** regularly, especially before stepping away.

Image uploads – Images can only be added in designated upload sections and can't be inserted into text fields.

WSGCE26 Application form

Form Preview

Spell check – SmartyGrants does not have built-in spell check. Use your browser's spell check (e.g. Chrome or Safari).

SmartyFile feature – If your organisation uses SmartyFile, organisational details can be pre-filled to save time.

Submission Reminder - When your form is complete, click **Submit**. You'll receive a confirmation email once it has been successfully submitted. Check your inbox (and spam folder) to confirm your application was successfully received. No email? You may have missed a question on the form. Many are compulsory, and will not allow you to submit without answering them.

There is a [SmartyGrants Help Guide for Applicants](#) available for those who are new to the system (or would like a refresher!).

Conflict of interest

Before you continue:

A conflict of interest should be considered if an applicant has something to personally gain from an application being successful, or if members of the public could have grounds to perceive that the applicant could personally gain from a decision.

Do you have a real, potential or perceived conflict of interest to declare *

- ☐ Yes - please complete the question below
- ☐ No

Please describe any real, potential or perceived conflict of interest that you are aware of, and how it will be mitigated and/or managed.

2. Applicant details

* indicates a required field

Organisation Details

Use the sections below to provide details about the organisation applying for the grant, including legal status, incorporation, GST status, and contact information.

If the application is submitted under an auspice arrangement, include the required details for the auspice organisation.

⚠ **Please note:** If your group is *not* GST registered, you will only be eligible to claim the grant amount excluding GST if you are successful. You will need to separately fund any GST costs on your purchases.

Name of Organisation *

3. Project description

* indicates a required field

Use the sections below to outline the need for your project and explain how you will deliver it.

Your project rationale and summary should explain the issue or behaviour you are addressing, describe the key idea behind the project, and show how it aligns with the Strategy objectives. This section also captures the essential details needed to understand the scope of your proposal, including the funding you are requesting and how and where the project will be delivered.

Waste Strategy 2030 objectives

The [waste strategy](#) includes three objectives to guide the Western Australian community and enable the development of a sustainable, low-waste, circular economy.

Select the objective(s) below that your project will contribute to:

WSGCE26 Application form

Form Preview

Waste strategy objectives *

- ☐ AVOID: generate less waste ☐ RECOVER: recover more value and resources from waste ☐ PROTECT: protect the environment by managing waste responsibly

Project rationale

Every strong project starts with a clear purpose. In this section, explain the waste issue or opportunity your project is responding to.

You might describe a local challenge you've identified, a group that needs extra support, or a chance to improve community knowledge or reduce contamination.

Share the story behind why your project is needed and why it matters for your community.
###

Example project rationale: *"Our community has high contamination in yellow-lid recycling bins, particularly food waste and soft plastics. Residents have shared that the rules can be confusing, and local data indicates contamination rates remain high. This project aims to provide simple, consistent education to support people to sort their waste correctly."*

What waste issue or opportunity do you want to address by doing this project? *

What waste habits or practices are you trying to change? Have you discovered an opportunity to engage a specific group (e.g. Culturally and Linguistically Diverse (CaLD) communities)? Seen a local problem, like high contamination in recycling bins? Identified an opportunity to improve waste avoidance, reuse, repair or recycling in your community?

Project summary

Use this section to provide a brief overview of your project.

Let us know the funding amount you're requesting, where the project will take place, and any partners involved.

Keep your project description short and focused— under 100 words is plenty—just enough to give a clear sense of what you plan to do and why.

You'll be asked to provide your detailed budget table and financial information later in the application.

Grant amount requested (excl GST) *

\$

What is the total grant amount you are requesting in this application? (excl GST)

Your project title is how people will recognise your project if it's successful. Try to choose something clear, catchy and memorable.

Example titles: "Waste less, save more" or "Fix it, don't ditch it".

Project title *

WSGCE26 Application form

Form Preview

For example, see text above

Your project description should clearly explain what your project is about in 100 words or less. This information will be used to promote your project in media releases and on the Waste Authority website.

Example description: *Our project will support the [community name] CaLD community to reduce waste by reusing and repairing everyday items instead of throwing them away. Over 12 months, we will deliver hands-on workshops that are culturally appropriate and supported by translated materials, bilingual facilitators, and visual demonstrations. Activities will build on existing skills within the community and show how to repair and reuse items such as clothing and household goods. Participants will develop long-term habits of repairing, sharing, and reusing items before buying new.*

Brief project description: *

Word count:

Must be no more than 100 words.

For example, see text above

How many people do you hope to reach with your project? *

Estimated audience number

How long do you believe your project will take to implement and complete? *

Estimated completion date, assuming project commencement after 1 December 2025. Enter a date or a time period. E.g. '1 August 2026' or '8 months'.

Project location

Please enter your project's proposed location. Your project's local government area and state electorate will then pre-populate for you.

If your project will be carried out at more than one location, please list them below, under 'Alternative locations'.

You can enter a metro suburb or regional area if you do not have a street address. e.g Joondalup or Albany

Project location (address)

Address

WSGCE26 Application form

Form Preview

start typing the address, it will pre-populate for you

Project location - LGA

Project location - State electorate

Alternative locations

Please put "Various" if your locations are unconfirmed. Otherwise, please list locations.

Project Partners

Partners are organisations that have a genuine, active role in your project. They may co-invest, share equipment or space, provide professional expertise, connect you with participants or communities, or collaborate on delivery.

Please list only those who contribute beyond a paid transactional role — service providers and contractors are not considered partners.

Letters of support from project partners, and/or other relevant organisations, help demonstrate community support, project need, and readiness to deliver the proposed activities. Please attach any letters of support you have below.

Will you have any project partners? *

☐ Yes

☐ No

If yes, please list project partners

Who are your project partners - others involved actively in your project

Partnership letters - letters of support

Attach a file:

Please attach letters of support from project partners or others if available

4. Project planning & evaluation

* indicates a required field

This section is designed to support you to plan and describe your project.

Applicants are strongly encouraged to include a project planning document. This may be a simple Community Impact Planner, Project Plan, or other document that outlines your intended behaviour change, how your activities support that change, and how you will measure outcomes. Your project planning documents can be as simple or as detailed as needed to suit your project.

More detailed planning tools, such as a Theory of Change, Logic Model, or Outcomes Measurement Planner, may be used if appropriate for your project.

- **Theory of Change** – helps you explain how your activities are expected to lead to the behaviour change you want to see.
- **Logic Model** – helps you clearly show what you'll do, what you'll produce, and what will change as a result.
- **Outcomes Measurement Planner** – helps you decide what you'll measure and how you'll know if your project has been successful.

Free planning tools and resources are available through the **Lotterywest Community Impact Hub**: <https://communityimpacthub.wa.gov.au/>

Project planning tools

A clear project plan helps keep your project on track. It outlines the project's purpose and sets out the scope, structure, resources, goals, deliverables, and timelines.

A project plan should include: • **Objectives** • **Activities** • **Outputs** • **Timeline** • **Responsibilities** • **Budget** • **Outcomes** • **Risks**

It is also important to consider how you will assess the impact your project has on the community.

Understand your vision → Plan your impact → Measure your outcomes

Please upload your project planning documents here:

Attach a file:

e.g. Project Plan, Community Impact Planner, Theory of Change, Logic Model, Outcomes Measurement Planner

Objectives

WSGCE26 Application form

Form Preview

Project objectives describe what your project aims to achieve. They outline the main goals you are working towards and help guide your activities. Objectives are usually broad statements about what you want to improve, create or support through your project.

When writing strong objectives, keep them broad rather than detailed, focus on the “why” of your project, and make sure they align with your outcomes and how you will measure success. Some applicants prefer to write a single objective statement instead — for example: *“To support our community to reduce contamination and build confidence in correct recycling and FOGO behaviours through accessible, culturally appropriate education.”*

Example project objectives:

- Increase community knowledge and confidence in reducing waste and sorting materials correctly
- Improve awareness of waste-reduction options such as reuse, repair and recycling across the broader community
- Reduce contamination in recycling or waste streams within targeted groups requiring additional support (e.g. CALD communities, seniors or apartment residents)

What are your objectives for the project? Please write your project objective statement, or list your objectives below. *

Describe the main change/s or benefit you want to achieve. You'll provide the specific, measurable details in the Outputs section.

Outputs (deliverables)

Project outputs are the activities, resources, or events your project will deliver. They describe what you will produce or carry out during the project—such as workshops, materials, or engagement activities.

Outputs should be **specific** and **measurable**, so it is clear what you plan to deliver and how progress can be tracked. This will help you clearly describe your project and how you will measure its success.

Example project outputs/deliverables:

- Deliver 4 community workshops on recycling, waste avoidance, reuse and repair behaviours by November 2027, reaching at least 50 participants in total.
- Run information stalls at 3 community events during the project, providing WasteSorted materials and engaging at least 100 attendees (measured through clickers or tally sheets)
- Provide tailored coaching to 1 community group or neighbourhood with high contamination rates through 3 in-person sessions and the distribution of WasteSorted sorting guides to participating households

What are your anticipated project outputs? (key deliverables) List them below. *

List specific, measurable outputs that clearly describe what you will deliver, including quantities, timeframes and how delivery will be tracked.

Outcomes

Project outcomes are the positive changes or benefits that happen as a result of your project. They describe the difference your activities will make in the community — such as improved knowledge, confidence or waste-sorting behaviours.

Outcomes should be clear and focused, so it is easy to understand what change you expect to see and how your project will make a difference.

Example project outcomes:

- Participants increase their knowledge and confidence in reducing waste and sorting materials correctly.
- The community has greater awareness of waste-reduction options such as reuse, repair and composting.
- Local contamination rates reduce in targeted areas after receiving education or support.

What outcomes do you hope to achieve for your project? List them below. *

Describe the positive changes you expect to see as a result of delivering your project outputs. Where possible, you may also describe how these outcomes could be measured (e.g. through surveys, feedback, or observed behaviour change).

Data and Impact

Collecting data helps you show the impact of your project. It should relate to your outputs and outcomes, helping you track what you deliver and how things change as a result.

Examples of ways to gather data may be:

- Collect short exit slips from workshop participants at the end of each session to gather feedback on what they learned
- Record participant numbers and collect brief feedback during events to understand engagement and awareness
- Carry out simple bin checks before and after coaching sessions to monitor contamination levels

There are many easy-to-use tools that can help you collect and organise your project data. These tools make it simpler to record information and track changes over time.

WSGCE26 Application form

Form Preview

Examples of helpful data tools include:

- spreadsheets (e.g. Excel) to record and track participation or project activities
- simple paper forms or sign-in sheets to record attendance and responses
- quick polls, quizzes or exit slips used during activities to capture participant feedback

How are you planning to collect data? *

Describe the tools or methods you will use to collect information from your participants and track your project activities and outcomes.

5. Project Reporting and Budget

* indicates a required field

Project reporting - Milestone information

Use this section to provide your proposed milestone dates for reporting on project progress.

These dates indicate appropriate points in your project timeline to report on progress only. They are not intended to reflect when purchases will be made or activities will occur.

As a guide, a 6-month project will usually have one milestone update, while a 12-month project often has two.

For WSGCE26 projects, an early 2027 start is recommended. Please consider this when setting your milestone date(s).

Milestone dates may be updated in consultation with successful applicants before the funding agreement is finalised.

Refer to sections 8 and 9 of the [WasteSorted Community Education Grants guidelines](#) for further information.

2. Milestone 1 date *

Estimated Milestone 1 date - NOT your project start date

3. Milestone 2 date

Estimated Milestone 2 date if applicable.

4. Acquittal date *

Estimated date for submission of Project Evaluation Report (including financials) after completing project activities.

Comments - Milestones

If you have any additional milestone comments, or your project requires more than two milestones, please note here.

Project budget - expenditure

This section helps us understand how you plan to spend the grant funding.

Please complete the budget table with your expected project costs. This information helps us assess how your project will be delivered and ensures expenses align with the purpose of the grant.

Include details of your organisation's contribution (cash and/or in-kind), and any other funding that has been confirmed or applied for.

You may include costs such as:

- Contractor or facilitator fees
- Social media promotion or advertising
- Translation or accessibility services
- Workshop materials or venue hire

#Be as clear and realistic as possible. This budget will be used to assess your application and will guide your reporting if funding is approved.

Applications that include recipient and/or partner contributions (cash and/or in-kind) will be assessed more favourably than those relying solely on grant funding.

Please **do not** include GST in your costings table.

A maximum \$25,000 excl GST grant limit applies per project.

Please confirm the grant amount you are requesting (excl GST)

This figure should be the same as the Total Grant Expenditure amount listed below your budget table (and the amount entered on page 3)

Project budget table

Use the table below to enter your project costs. Please attach quotes for proposed goods and services in the section under the budget table.

WSGCE26 Application form

Form Preview

- All figures must be GST exclusive – check your quotes and make sure you enter the GST-exclusive amount.
- Be as descriptive as possible when describing your expenditure items (e.g. “Venue hire – [Community Hall name] for 5 workshops”).
- Include your contribution (and others', if applicable) to the project, including in-kind contributions.
- Please do not add commas to figures. e.g. write \$1000 not \$1,000.

Refer to the [WasteSorted Community Education Grants guidelines](#) for further information on eligible budget items.

To add budget lines: click the '+' or 'Add More' button.

Budget Items (Expenditure items)	WasteSorted Grant \$ excl GST	Your Contribution \$ excl GST	Other funds \$ excl GST
e.g. Workshop presenter K Smith x 6 sessions	e.g. \$1800 or \$0 if no expenditure	in-kind or cash \$	e.g. other grants, or donations \$
		\$	
		\$	
		\$	
		\$	
		\$

6. Project compliance and insurances

* indicates a required field

Risks, approvals and compliance

Use this section to outline how you will manage risks, approvals and compliance requirements for your project.

As part of project planning, you are expected to consider potential risks, any approvals required, and compliance with relevant laws and regulations.

The Department of Water and Environmental Regulation (the Department) expects that, so far as is reasonably practicable, you will manage the work health and safety (WHS) of workers and subcontractors who are engaged, or caused to be engaged, on this project.

Successful WasteSorted grant recipients must demonstrate how health and safety risks will be managed during the project, proportionate to the level of risk involved.

You must confirm that you agree to comply with the *Work Health and Safety Act 2020 (WA)* and the *Work Health and Safety (General) Regulations 2022 (WA)*, and that suitable documentation and risk mitigation strategies will be in place prior to signing the Grant Agreement.

Worksafe has many checklists and tools available at: www.commerce.wa.gov.au/worksafe.

Risks

Part of project planning is considering potential barriers or risks that may delay or prevent the success of your project or your ability to complete the project on time.

Examples:

#Low community engagement

- *Risk:* Limited attendance or participation in workshops/events
- *Mitigation:* Promote through local networks, and social media; offer incentives

Staffing issues (staff changes, loss of staff)

- *Risk:* Staff illness, unavailability, or turnover could delay project delivery or reduce capacity
- *Mitigation:* Identify backup personnel or volunteers; cross-train team members; maintain clear documentation to support handover if needed.

Please also tell us how you plan to manage any potential risks. (risk and mitigation)

Please provide details of any potential barriers or risks to your project's success and state how you will address them *

Consider anything that might make your project harder to deliver, and briefly explain how you'll manage it.

WSGCE26 Application form

Form Preview

Approvals

Your project may require several types of approvals to ensure compliance and smooth execution.

For example:

- **Stakeholder Approvals:** Consent from key stakeholders, such as community leaders, businesses, and residents, to gain their support and involvement.
- **Local Government Approvals:** Permits from local councils or municipalities, especially if the project involves public spaces or community events.
- **Health and Safety Approvals:** Ensuring the project meets health and safety standards to protect participants and the community.

These approvals help ensure that the project is legally compliant, safe, and supported by the community.

Are any project approvals and/or licences required? *

☐ Yes ☐ No

Is there any planning, environmental or other approvals required for the project? e.g. event permit

If yes, what approvals and/or licences are required?

Please provide copies of permits or permit numbers.

Please attach copies of permits/licences (if applicable)

Attach a file:

Maximum file limit 25MB. Recommended to keep files under 5MB.

If required approvals and/or licences have not been granted yet, what steps are being taken to get them, and when do you expect to receive approval?

In the past five years, have you received any notices, convictions or prosecutions under Western Australian environment protection laws, including the Environmental Protection Act 1986, Rights in Water and Irrigation Act 1914, Contaminated Sites Act 2003, Waste Avoidance and Resource Recovery Act 2007 and associated regulations? *

☐ Yes ☐ No

If yes, please provide further information - notices, convictions or prosecutions

Compliance with Western Australian environmental laws.

Work Health & Safety

WSGCE26 Application form

Form Preview

Do you agree that your organisation will undertake due diligence to ensure any workers (or subcontractors working on the project) will comply with all relevant laws as mentioned above? *

☐ Yes

☐ No

Subcontractors may be people like workshop presenters hired.

Please advise below how you have considered the work health and safety of workers, subcontractors or volunteers associated with the project. *

The department may request copies of any health and safety documents, risk assessments or job safety analyses (JSA) before the commencement of the project.

Attach any available health and safety documents you consider are relevant

Attach a file:

This could be a WHS document, a risk assessment, or JSA

Insurances

It is a condition of your grant that you have adequate insurance to cover potential liabilities in conducting activities funded through WasteSorted Grants.

Relevant insurances may include:

- Workers' compensation
- Directors' and officers' liability
- Public liability
- Personal accident insurance for volunteers
- Contents/mobile plant and equipment
- Professional indemnity

Please provide details of insurances held (including type of insurance/s, provider, value insured and expiry date) and attach relevant documents. *

Please attach relevant insurance documents

Attach a file:

Maximum file limit 25MB. Recommended to keep files under 5MB.

7. Assessment criteria

* indicates a required field

Use this section to respond to the assessment criteria for your application.

WSGCE26 Application form

Form Preview

All WSGCE applications are assessed against the following evenly weighted criteria:

- 1.project benefits
- 2.viability of the project
- 3.capacity and capability of the applicant
- 4.value for money

In addition, the following unscored consideration is also taken into account:

- whether the project addresses one or more focus material(s).

Applicants should provide sufficient information in their responses to address each of the criteria.

Further information on each criterion is available in **Section 5.4** of the [WasteSorted Community Education Grants Guidelines](#). Applicants are encouraged to review this section when preparing their responses. Information on focus materials can also be found in the [waste strategy](#).

When responding to the criteria, applicants may wish to consider:

- how the project supports one or more objectives of the waste strategy (avoid, recover and protect)
- the project's capacity to achieve positive behaviour change
- a project plan, including required resources, measurement and evaluation of outcomes
- evidence of research to demonstrate value for money (for example, quotations)
- whether the project addresses one or more focus material(s).

Note: Preference in the 2026-27 funding round will be given to projects that encourage waste avoidance and the diversion of focus materials from landfill. Projects that do not address any listed focus materials will still be considered, but may be less competitive in the overall assessment.

Criteria 1. What will the benefits of your project be? *

Criteria 2. Comment on the viability of your project by explaining how achievable it is and how likely it is to deliver meaningful results *

Criteria 3. Describe your organisation's capacity and capability to successfully deliver the project *

Criteria 4. How does this project demonstrate value for money? *

Focus materials (unscored consideration)

To help Western Australia meet its waste strategy targets, we need to concentrate on the materials that make up the bulk of our waste. More than 90% of what Western Australians throw away—by weight—is made up of just a few key materials. Your project can make a real impact by targeting one or more of these high-priority waste types.

Select the material(s) which your project targets. *

- ☐ Construction and demolition waste
- ☐ Glass: packaging and containers
- ☐ Hazardous waste (non-household)
- ☐ Metals: steel, non-ferrous metals, packaging and containers
- ☐ Organics: Food and garden organics
- ☐ Paper and cardboard: office paper, newspaper and magazines
- ☐ Plastics: packaging and containers
- ☐ Textiles: clothing and other fabric-based materials
- ☐ Other

you can select more than 1 response

If Other, please list the waste material(s) you are targeting

Projects that do not address the listed focus materials will still be considered, but those that do will be given preference and are likely to be more competitive.

8. Checklist and declaration

* indicates a required field

Supporting material:

Please attach any other relevant supporting material (related photos, financial statement etc) here.

Name your attachments clearly, and ensure that if they have important project information, they are referenced within this application form.

Attach Files:

Attach a file:

Maximum file limit 25MB. Recommended to keep files under 5MB.

Must be a URL.

Checklist

Before you submit your application, please ensure you have provided all the relevant information and attached relevant supporting documentation.

You will receive an automated email as confirmation that your completed application has been received. A copy of your application will be attached.

If you do not receive the confirmation email, or experience difficulties submitting your application, please contact the [WasteSorted Grants officer](#) via email or on 6364 6962.

I have:

- read and understood the WasteSorted Community Education Grants 2026-27 guidelines
- included all details of project funding in my application
- completed all relevant fields of the form
- confirmed budget details are correct and all amounts are **exclusive of GST**
- uploaded all applicable supporting documents to the submission (e.g. project plan, quotes, certificates of insurance, support/partnership letters, financial statement etc.)
- confirmed the application has been completed by an authorised officer.

I confirm all of the above ☐

*

Declaration and privacy statement

I declare that the information given in this WasteSorted Community Education Grants application and all attached documents are complete and correct to the best of my knowledge, information and belief.

I agree that I will contact the [WasteSorted Grants Officer](#) via email or on 6364 6962 immediately if any information provided in this application changes or is incorrect.

Privacy statement

The department will collect personal information in your application for the WasteSorted Community Education Grants Program, to evaluate your funding request and prepare a grant agreement if your application is successful.

All personal information provided in this application form may be shared with members of Western Australian government agencies and the grant assessment panel members for the purpose of assessing the application, including all attachments. Where necessary, information contained in your application may also be provided to the Western Australian Minister for the Environment and the Minister's staff for reporting purposes, except for information subject to the department's confidentiality obligations.

The department will seek your consent for any uses or disclosures outside of these terms.

WSGCE26 Application form

Form Preview

If your application is successful, the following information may be published on the Waste Authority website:

- your organisation's name
- total amount of funding awarded
- project name, location, and description

DWER collects and uses the personal information you provide to process your request or form, in line with the [PRIS Act 2024 \(WA\)](#) and the [DWER Collection notice](#).

9. Applicant feedback

Thank you

Thank you for completing your application.

We will notify applicants of the outcomes within approximately 12 weeks.

Good luck!#

Feedback - optional

We value feedback for our program reviews.

Any insights you have on our grants, whether about the online system or the process, would be greatly appreciated.

Overall, how easy was it to work on and submit this application online through SmartyGrants?

- ☐ Very easy to use
- ☐ Easy to use (after a few times)
- ☐ Somewhat difficult to use
- ☐ Very difficult to use, I didn't like the system

WSGCE26 Application form

Form Preview

Were the WasteSorted Grants guidelines and application form questions easy to understand?

- ☐ Very clear and easy to understand
- ☐ Mostly clear
- ☐ Somewhat unclear
- ☐ Very difficult to understand

If you found any parts unclear, please tell us which sections or questions could be improved.

Was the grants webinar useful?

- ☐ It had a lot of good information
- ☐ It covered a few things that I wanted to know
- ☐ It was not very useful - it didn't cover what I wanted to know
- ☐ I didn't attend / download a copy of the webinar

Was the Grants officer helpful?

- ☐ Very helpful
- ☐ Somewhat helpful
- ☐ Not very helpful
- ☐ Not helpful
- ☐ I didn't contact the Grants officer

Comments - is there anything we can do better? anything we did well?

If you didn't view the webinar, or speak to the grants officer, was there a reason?
